

Sådan sorterer du dit affald

How to sort your waste

Forskellige affaldstyper / Different types of waste

Det almindelige affald fra køkkenet - det man kalder dagrenovation - skal i den almindelige beholder **UDEN** genbrugspile.
Your household waste goes into the non-recycling container.

Alt hvad der er rent, tørt og kan genanvendes, skal sorteres i de forskellige beholdere til genbrug.
All reuseable materials which is clean, dry and without food particles, can be sorted into the different containers for recycling.

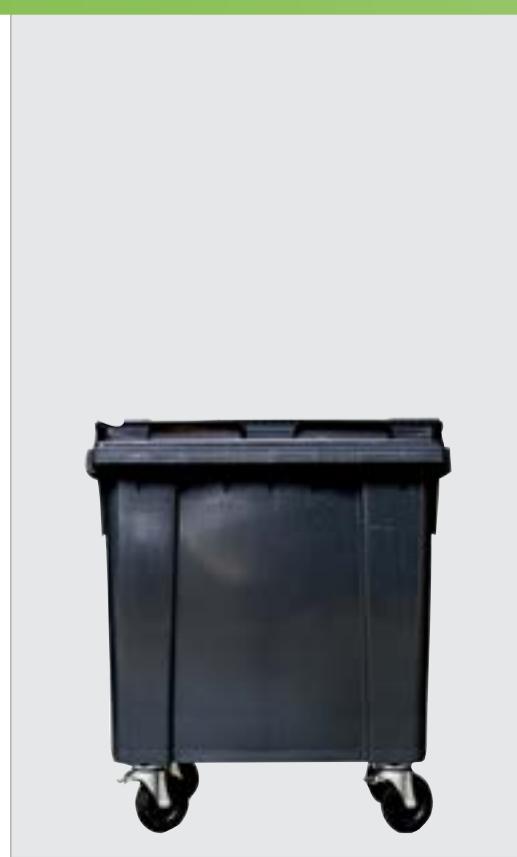

I din lejlighed / In your apartment

Du kan eventuelt sortere i nogle kasser inden du bærer det ned til genbrugsbeholderne.

You may want to sort out your recyclables before carrying it to the containers for recycling

I det udendørs affaldsområde / In the outdoor waste area

Bottles, Glass and Plastic packings

Cardboard and soft plastic wrap

Cans and things made of metal

Paper, newspapers and ciculars
